

# Westhaven

Enjoy the look and features of a home theater wall for a fraction of the cost of custom built cabinetry. Complete the room with 6.1/7.1 surround sound side speaker columns that provide movie theater ambience with a lighted sconce. Add acoustical panels to reduce sound ricocheting off sheetrock walls. And, to complete the room, you may purchase matching base molding at very attractive prices. And, best of all, you can take your theater with you when you move.

| <u>SKU</u> | <u>DESCRIPTION</u>     | <u>W X D X H</u>                      |
