AS OUR HOMES BECOME MORE TECHNOLOGICALLY ADVANCED, THE HOMEOWNER IS EXPECTED TO BECOME AN EXPERT IN THE OPERATION OF MANY NEW DEVICES. ALTHOUGH THE FOREFRONT OF THIS ADVANCEMENT HAS BEEN THE AUDIO/VIDEO SYSTEMS, ENVIRONMENTAL CONCERNS IS MAKING POWER CONSUMPTION A MATTER OF CONCERN. ONE BUTTON TO TURN OFF ALL THE LIGHTS OR TO TURN DOWN ALL YOUR THERMOSTATS MAKES LIFE EASIER. WE CREATE A SYSTEM TO TRANSLATE MANY COMPLICATED OR TEDIOUS STEPS INTO A SIMPLE TO USE CONTROL. YOU CAN USE A TOUCH SCREEN, CELL PHONE OR EVEN YOUR IPAD TO CONTROL YOUR HOME.

# AUTOMATION

We call the main control system the overlay system. Although you may have a smart thermostat or lighting control system, there is another system that would integrate the different systems together, allowing those systems to be controlled through a single remote control or touch screen. It overlays the other systems to create a common path for communication. Image, Sound & Control offers the best in **Lighting Control, Temperature Control, Power Management, Media Servers, and Overlay Systems**. Let us show you some of our projects to give an idea of the possibilities we can provide your home.
